

Map 1 Exercise

Question and Answer

Look at the map called the Trail of Tears. Use the map to answer the questions below

1. How many trails can you find that make up the Trail of Tears?

(4)

2. Find the map key and identify the different types of trails.

(Land and water)

How many of the trails are by land? (3) By water? (1)

3. Trace over each trail on the map, using a different color for each trail type.
4. Identify the state boundaries on the map. Now write out the name of each state within the correct state boundary. (Georgia, North Carolina, Tennessee, Kentucky, Illinois, Missouri, Kansas, Oklahoma, Arkansas, Mississippi, Alabama)
5. How many states do the trails pass through? (9)

Matching

See if you can guess the approximate time it would take to travel the 2200 miles of the Trail of Tears with the different types of transportation. Use a different color line to make your matches. Use other resources in your classroom or in your home to help you with you find the correct match.

Foot (4 months)	4 1/2 days
Boat (3 months/90 days)	90 days
Auto (4.5 days)	4 1/2 hours
Horse (90 days/3 months)	4 months
Train (3 days)	3 months
Airplane (4.5 hours)	3 days
